WORK EXPERIENCE

AutoMate Solutions
Software Engineer

Dec 2025 – Present
Ho Chi Minh City, Vietnam

ORBIT – Enterprise Sales & Field Operations Management Platform

- Developed and maintained enterprise web features for sales management, appointment scheduling, and field operations using React and TypeScript.
- Developed reusable and responsive UI components, integrating RESTful APIs to deliver scalable enterprise web applications.
- Integrated real-time data synchronization via Pusher for live appointment updates and built complex calendar based workflows, significantly reducing scheduling conflicts.
- Investigated and resolved production issues while collaborating in Agile development and participating in code reviews.

ATLAS – Enterprise Construction Management Platform

- Developed enterprise features for project, vendor, construction site, and report management using React and TypeScript.
- Designed and implemented responsive, Role-Based Access Control (RBAC) interfaces and real-time document workflows, providing secure and seamless collaboration experiences.
- Maintained high code quality and system stability by conducting rigorous peer code reviews, resolving UI/UX bugs, and actively participating in Agile sprint planning.

EDUCATION

Bachelor of Engineering in Information Technology

October 2021 - December 2025

Thu Dau Mot University

PROJECTS

Halora Cosmetics – Web Platform (Admin & User) | Jul 2025 – Dec 2025

Full Stack Developer | <https://halora-cosmetic.vercel.app/>

- Developed a full-stack e-commerce platform (user storefront and admin dashboard) using React, leveraging Firebase for robust backend services, secure authentication, and database management.
- Prioritized Redux for centralized global state management, seamlessly syncing complex client-side workflows (shopping cart, orders) with the Firebase database to ensure strict data consistency.
- Integrated Cloudinary for scalable product media storage and delivery, significantly optimizing front-end image loading speeds.

Halora Cosmetics – Mobile App | Jul 2025 – Dec 2025

Mobile Developer | <https://youtu.be/kbDpjS7Xgls>

- Developed a scalable cross-platform mobile application for cosmetics retail utilizing React Native and Expo, delivering a seamless and intuitive user experience.
- Implemented Redux as the primary state management solution for complex features like checkout pipelines, working in tandem with Firebase to maintain high app responsiveness and seamless user experiences.
- Optimized UI rendering performance and data fetching processes to accommodate diverse mobile screen sizes and network conditions.

SKILLS

- **Languages:** JavaScript, TypeScript.
- **Frameworks & Libraries:** React, React Native, Redux, Expo, Flutter, Shadcn/UI.
- **Backend, Tools & Cloud:** FastAPI, Node.js, Firebase, Cloudinary, Git.
- **Soft Skills:** Problem Solving, Cross-functional Collaboration, Communication, Adaptability.
